Equipment needs

You need a compatible telephone handset and broadband modem to use this service. The modem must be an Optus approved device. If you are a new Optus Broadband customer we will provide you with a WiFi modem at no additional cost.

Please ensure you inform us if you use equipment such as disability or medical services or a back-to-base alarm. Some equipment may require an alternative service or additional equipment. We will tell you if we are not able to support the equipment.

Installation

Up to two technicians may be required to install your Optus nbn™ service, one from nbn™ Co and the other from Optus. Optus reserves the right to charge for non-standard installations. You must obtain permission from the owner of the property to have the Optus nbn™ service installed and be over 18 years of age.

If you are an Optus nbn™ customer (excluding FTTC) that has received delivery of your Optus self-installation kit and you do not self-install your Optus equipment within five working days of your Optus nbn™ connection date, we will automatically activate your connection and begin billing you. If you are transferring existing services to Optus nbn™ this may result in the disconnection of those services. If you require assistance to connect, contact us at yesopt.us/chat2us

System requirements

To use the Optus Broadband service you need to make sure your computer is compatible. Please see optus.com.au/systemcompatible

Bundling arrangements

You must keep both the telephone (local and long distance) and broadband services to retain the rates in the above table and the bundle monthly fee.

You might also be able to get additional discounts if you have another Optus service. If you cancel or port a service away, we will change the remaining service to a stand alone plan which may cost more than the bundled equivalent.

Special promotions and value added services

This summary doesn't include any special promotions or extra value added services (bolt-ons) that you select whilst you have this telephone and broadband bundle plan.

Changing the access method

We may change the access method for your service for the remainder of your minimum term and move you to:

- A new plan that is reasonably comparable with your current plan; or
- An alternative plan, but only if we take reasonable steps to address any detrimental impact that the change may have on you that is not minor.

If we change your access method, you must provide all reasonable assistance to enable the change to be implemented, including access to your premises and equipment.

Unless otherwise agreed with you, we will not charge you for installing or equipment we supply to you to use with the changed access method. Alternatively, we may ask you to change your access method during your minimum term even if the change may have a detrimental impact on you that is more than minor.

If you refuse our request, we may cancel the service by giving you at least 90 days' notice. If the service is cancelled, you will be liable for charges incurred up to cancellation, but you will not be liable for any cancellation fee or outstanding equipment charges. We will contact you to discuss the details of any changes we plan to make to your access method prior to making the change.
