Optus Superfast nbn plan

Information about the Service

Service and Plan Description

These are postpaid based plans provided by Optus Internet Pty Limited for standalone Fixed Broadband services that are supplied using the Optus nbn® network. You also have the option of adding a Fixed Telephone service if you purchase this plan with an Optus-supplied modem. See 'Optional Phone Plans' section (page 3).

Plan	
Minimum term	Month-to-month
Minimum monthly charge	\$115/mth
Monthly data allowance	Unlimited
Start-up fee	\$0, however, fees may apply for a first time nbn connection to dwellings in new developments, for additional lines or for non-standard installations
Modem charge (optional)	\$306, if you choose an Optus-supplied modem, which you can take on a Device Payment Plan (where Optus will cover the cost of the modem with a \$12.75/mth credit, if you remain connected for 24 months); or for select plans, you can purchase outright (in-store or by contacting us).
Minimum total cost (includes modem cost and with Introductory Offer applied, if applicable)	\$421 (includes \$306 modem cost and one month plan fee) \$115 (if you have a self-supplied modem and one month plan fee)
Cancellation fee	There are no cancellation fees for these plans. If applicable, you'll need to pay out any remaining Device Payments in full (any credits or discounts will be forfeited), plus, all charges incurred up to the end of the billing cycle in which your service is cancelled (unless otherwise specified).
Included nbn speed	Home Superfast (see page 2)
NBN technology type	FTTP/HFC

The full Terms and Conditions for this plan can be found at optus.com.au/standardagreements

Service limitations

This service may not be suitable if you have a serious illness or condition and require an uninterrupted service. Some equipment like back-to-base and medical alarms and other devices may not be compatible with the nbn or 4G backup service and are not tested by us or supported on Optus nbn. You should contact your device supplier to find out if your device will work before connecting to the nbn.

Service and plan availability

Optus Broadband services are not available in all areas or to all premises. The broadband service offered will be determined by what is available at your location. Optus Broadband services are only available at premises which can be physically connected to the Optus Network. There may be technical or commercial reasons that affect our ability to connect a service at your address. To check your serviceability and find out what kind of Optus Broadband is available at your address visit optus.com.au/serviceabilitycheck

Equipment needs

With these plans, you can choose to take an Optus-supplied modem, which can be purchased on a Device Payment Plan (DPP). For select plans, you can purchase the Optus-supplied modem outright at an Optus store or by contacting us on 133 937.

Alternatively, you also have the option to use your own modem with these plans (self-supplied modem). If you choose to purchase an Optus-supplied modem on a DPP, the cost of the modem will be \$0 when you stay connected for 24 months (during which your device repayments will be reduced by a prorated, monthly credit as part of the DPP).

If you choose to use a self-supplied modem with one these plans, you acknowledge and agree that you can only use it with an eligible Optus stand-alone internet service (i.e., you cannot add a Fixed Telephone service) so you won't have access to a fixed phone service that you can use to make or receive calls, including contacting emergency services like 000. It is your responsibility to ensure your self-supplied modem is nbn compatible and can be used with the Optus internet service. Some Optus equipment (like the Optus-supplied Boosters) and certain add-ons may not work with your self-supplied modem. Optus will only be able to provide you general support for your service and won't be able to identify or fix faults that are related to your self-supplied modem. For any technical support related to your self-supplied modem, you'll need to contact the manufacturer directly.

Accessibility

For info about products and services we offer for customers with differing abilities, please see optus.com.au/about/inclusion-diversity/differing-abilities/disability-services

Device Payment Plans

You can buy an eligible device (such as a Booster) on a Device Payment Plan (DPP) and pay for it over a selected term by monthly instalments. You will need to remain on this broadband plan or other eligible plan for the term of your DPP. If you cancel your plan or move to an ineligible plan, your related DPP will also be cancelled. See "Cancellation" (page 2) for more detail.

System requirements

To use the Optus Broadband service you need to ensure your computer and devices are compatible. Please see optus.com.au/systemcompatible

Installation

Optus reserves the right to charge for non-standard installations. You must obtain permission from the owner of the property, if that's not you, to have Optus Broadband installed, and have someone over 18 years of age in attendance at the appointment. If you're in a new development and not already connected to the nbn, NBN Co Ltd. may charge \$300 to connect your premises to the nbn. If applicable, we will bill that charge to you.

You may need a technician to install the service. If applicable, we will send you an Optus self-installation kit. Installation fees may apply if you request a technician installation where a self-install option is available. If you require assistance to connect, contact us at yesopt.us/chat2us

Optus is required by law to confirm your nbn service is working. We may not be able to confirm this if you do not use the modem that Optus supplies you. You'll need to tell Optus of any issues you have with your nbn service before we can rectify them.

If you don't plug in your modem, we will auto-complete your order 10 days after we have reminded you to plug in your modem. Billing will commence once we confirm your nbn service is operational or once we've automatically completed your order (whichever occurs first). If you are an Optus nbn FTTC or HFC customer and fail to plug in the nbn equipment within the specified timeframes, NBN Co Ltd. may cancel your order.

Plan speed

The Home Superfast speed tier is included with this plan. Information about the Typical Busy Period Speeds for your included speed is available at optus.com.au/shop/broadband/home-broadband/nbn-speed-packs

Typical Evening Speeds/Typical Busy Period Speeds are based on customer averages and are not a guaranteed minimum. If your maximum line speeds are not available during service qualification and you have a FTTN, FTTB or FTTC connection, we'll confirm them when your service is working.

More about broadband speeds

There are a wide range of things that can impact the internet speeds you actually experience, and this can vary greatly between different homes. For more info, go to optus.com.au/broadband-nbn/home-broadband/internet-speeds

Special promotions, extras and subscriptions

This summary doesn't include information on special promotions, optional extras or subscriptions that you may access from time to time. Additional terms and conditions (including charges) may apply to these special promotions, optional extras or subscriptions.

Fair Go Policy

Our Fair Go Policy applies to this plan and related services. You must comply with our Fair Go Policy and not use your service in a way that is unreasonable, unacceptable, or fraudulent, including causing significant congestion to our network. We may take steps to monitor and ensure compliance with the policy, including by suspending or cancelling your service. For more information see optus.com.au/fairgo

Information about pricing

See the table at the start of this summary for your plan pricing and minimum monthly charge. Monthly charges are paid in advance and any charges not included in your plan will appear on your next bill after they are incurred.

Cancellation

You can cancel your plan at any time with no plan cancellation fee. You'll need to pay all charges and fees, inclusive of charges outside of your plan inclusions (including for services or accessories), incurred up to the end of the bill cycle in which the service was cancelled (unless otherwise specified). Any related Device Payment Plan will also be cancelled and you'll need to pay out any remaining device payments in full and any applicable device credits or discounts will be forfeited. This is subject to your Australian Consumer Law rights. You will also lose any add-ons, features, voice services, phone numbers, usernames or Optusnet email services and addresses (unless other arrangements are available and agreed).

Plan changes

You can change your plan to an eligible Fixed Broadband plan (if available) once per billing month. Contact Customer Service if you would like further information.

Charges

We recommend that you select Direct Debit as your payment method to avoid any additional payment charges. The below table outlines additional charges that may apply when paying your bill. For more details on methods to pay your bill visit optus.com.au/payments

Payments by direct debit	No additional payment charge
BPay payments (manual)	No additional payment charge
Payments in-person at Australia Post	See optus.com.au/payments
Electronic copy of your bill	No charge
Paper copy of your bill	See optus.com.au/billingfees
Late payment fee	See optus.com.au/billingfees
Non-direct debit fee	See optus.com.au/billingfees
Credit card payment fee	See optus.com.au/billingfees

Relocation fee

Relocation fees may apply depending on circumstances.

Other information

Changing the access method

We may change the access method for your service for the remainder of your minimum term and move you to:

- A new plan that is reasonably comparable with your current plan; or
- An alternative plan, but only if we take reasonable steps to address any detrimental impact that the change may have on you that is not minor.

If we change your access method, you must provide all reasonable assistance to enable the change to be implemented. We will contact you to discuss the details of any changes we plan to make to your access method prior to making the change.

The full Terms and Conditions for this plan can be found at optus.com.au/standardagreements

Optus phone availability

Optus phone services are not available in all areas or premises. The phone service offered will be determined by what is available at your location. You must preselect Optus as both your local and long-distance carrier. There may also be technical or commercial reasons that affect our ability to connect a service at your address. To check your serviceability, visit optus.com.au/shop/home-phone/plans

Mobile calls

On the Phone Lite plan, a standard national call to any Australian mobile for 2 minutes including flagfall would cost \$1.08.

Equipment needs

You need a compatible telephone handset to use these plans. This service may not be suitable if you have a serious illness or condition and require an uninterrupted telephone line on an uninterrupted power supply. Some equipment like back-to-base and medical alarms and other devices may not be compatible with the service. You should contact your device supplier to find out if your device will work before connecting to the nbn network.

For information about products and services we offer for customers with different disabilities, please see optus.com.au/about/inclusion-diversity/differing-abilities/disability-services

If you are transferring existing services to Optus nbn, this may result in the disconnection of those services. If you require assistance to connect, contact us at optus.com.au/notices/service-chat

Exclusions and conditions

For Phone Everyday 10, 'Unlimited' calls to standard national numbers, Australian mobiles and national fixed lines exclude special numbers such as 13/1300 numbers, premium numbers (e.g. 1900 numbers), 1234, 12456 and calls to satellite or international numbers.

Special promotions, extras and subscriptions

This summary doesn't include information on special promotions, optional extras or subscriptions that you may access from time to time. Additional terms and conditions (including charges, changes and cancellation rights) may apply to such special promotions, optional extras and subscriptions.

Customer Service Guarantee (CSG) Waiver

The benefits of this offer are on the basis that you must agree to a waiver of your rights under the Customer Service Guarantee Standard (CSG Waiver) before you can sign up to this plan or a new standard telephone service provided by Optus. You cannot purchase this Phone plan without agreeing to the CSG Waiver set out below. For more information, see optus.com.au/yourCSG

Customer Service Guarantee (CSG) Waiver

This waiver is provided by Optus in addition to our Standard Terms, and applies to customers who purchase a new, or recontract a, fixed-line telephone service from Optus on or from 7 July 2025.

Optus telephony services are provided on the basis that you agree to waive all rights and protections provided to you under Part 5 of the Telecommunications (Consumer Protection and Service) Act 2011 and the Telecommunications (Customer Service Guarantee) Standard 2011 (the CSG) in exchange for a better value service. The rights, protections and performance standards generally provided under the CSG that you'll be waiving include:

- Maximum time frames for the connection of a standard telephone service and/or any enhanced call features;
- Maximum time frames for the fixing of a fault with your standard telephone service and/or any enhanced call features;
- Time frames for attending connection or fault fix appointments;
- Provision of information to you about these performance standards; and
- Prescribed compensation payable to you if we are unable to meet these performance standards.

This doesn't mean that we are not committed to providing you with the best customer service we can. As always, we'll endeavour to connect your service or fix any issues you have as fast as we can. This waiver will take effect on the date that you agree to it. You don't have to agree to this waiver, but if you don't or if you withdraw within your cooling off period, then you agree that we'll decline to supply you with the Optus telephone service you ordered. You can still place an order for internet service without telephony or an alternative product from us. You are unable to place an order for Optus internet service with telephony without consenting to the CSG waiver.

If you provided your consent to this waiver orally, then it will take effect 5 working days from the date you agreed to it (unless you withdraw in this cooling off period). If you would like more information about the CSG, you can visit the ACMA website. If you need help, you can contact us. By purchasing this Phone plan, you acknowledge and understand that you will not be entitled to the rights and protections, including compensation, if we do not meet the performance standards set out in the CSG.
