Plan Changes

If you are an existing Optus Flex Plus Casual customer, you will only be able to change to Optus Flex Plus and after doing so you will be unable to change back to Optus Flex Plus Casual. If you change to Optus Flex Plus, you will forfeit any unused inclusions and rollover balances on your previous plan.

From 28 April 2025, these plans (including prices and some inclusions) changed. The above prices and inclusions apply to vouchers purchased and redeemed on or after 28 April 2025 and to all other recharges on or after 13 May 2025. For details on recent plan changes, refer to our Standard Agreement at optus.com.au/standardagreements.

Standard calls, texts and data usage

For all plans except the \$180 plan, minutes are counted in per minute increments and texts are counted per SMS (max. 160 characters) or MMS sent. Data is counted per KB, and includes uploads and downloads. Included minutes and SMS/MMS are to Australian standard numbers only (excludes special, premium, satellite and overseas numbers). If included minutes and SMS/MMS are used up before your recharge expiry, you will be unable to make calls or send SMS/MMS unless you recharge again (the Extras Credit Add-on will not provide national calls and SMS/MMS).

Calls to 1800 numbers

You will be able to make calls to 1800 numbers up until the time your recharge expires. Charges may apply to services that connect you to premium numbers. You cannot connect to premium numbers on this plan unless you have purchased an Extras Credit Add-on, or the amount can be charged to a third party.

Calls to help lines

You can call Lifeline on 13 11 44, Beyond Blue on 1300 22 4636 and Kids Helpline on 1800 55 1800 without charge while you're in Australia.

Other usage types

Calls to Directory Assistance 1223, 124YES, Standard national video calling, Premium messages to 19 numbers and calls to other premium numbers are not supported on this plan without the purchase of an Extras Credit Add-on.

Recharge Expiry

Any unused inclusions will be forfeited upon expiry or when you do your next recharge (whichever is earlier).

Network Access and Speed Caps

These plans provide access to the 4G and 5G Network. 4G and 5G network speeds are capped at 150Mbps. Actual network speeds may be slower and will vary depending on a range of factors including your device, location and the source of download. You will need a 5G compatible mobile phone and to be in an Optus 5G Network coverage area to access the Optus 5G Network. 5G is available in selected areas (excl. NT). Coverage will vary, check optus.com.au/coverage for details. When not in an Optus 5G Network coverage area, compatible devices will switch to the Optus 4G Network where it is available.

Special Promotions and Optional Extras (Add-ons)

This summary doesn't include information on special promotions or optional extras (such as add-ons) that you may access with these plans from time to time. Additional terms and conditions may apply to special promotions and optional extras. For example, extra charges may apply to optional extras, including entertainment services. You can purchase a range of different add-ons to complement your plan either online or from My Optus app, which is where you will also find the applicable terms and conditions. You must be within an active recharge period to purchase an add-on.

AutoRecharge

You can choose to turn on AutoRecharge to automatically recharge on the day of expiry. You must save a payment method (credit card or debit card) at any time via My Optus app. We will deduct payment on the day of expiry (any time from 5.30am, Sydney time) and your service will automatically recharge between 11.00pm and 11.30pm (Sydney time) on that day. If you cancel your AutoRecharge after you have been charged, but before midnight on the day of expiry, we will refund you within 2–10 business days.

You can manage your AutoRecharge options via My Optus app, or by SMS (text 'MENU' to 9999) if you have a saved payment method.
