Eligibility

These plans are only available to eligible customers.

Devices

You need a compatible mobile phone device to use with these plans. You may bring your own compatible device, or buy a compatible device from us outright or with these plans on a device payment plan and pay for it over a selected term by interest free monthly payments. You'll need to remain on an eligible plan for the term of your device payment plan. If your device payment plan is cancelled, you'll need to pay out any remaining device payments in full and any applicable device credits or discounts will be forfeited.

What's included

Monthly inclusions set out in the table above and included usage types are outlined below:

- Standard national talk & text:** Included value can be used for calls, SMS and MMS in Australia to standard Australian numbers, calls to 13/1300/1800 numbers, voicemail retrievals/deposits and voicemail diversions.
- Standard international talk & text from Australia:** If you have the Medium or Large plan, included calls, SMS and MMS can be used to standard numbers to the following destinations: Brazil, Brunei, Cambodia, Canada, mainland China, Colombia, Denmark, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Laos, Lebanon, Malaysia, Malta, Mexico, New Zealand, Norway, Poland, Romania, Singapore, South Korea, Sweden, Taiwan, Thailand, UK, USA and Vietnam (Selected Destinations).
- Monthly data to share:** These plans share data within Australia. If you have more than one eligible plan that data shares on the same account, the included monthly data allowance will combine into one data sharing pool, which will be shared by all the eligible plans that share data on that account. If you use more than your included data, data usage on these plans and all services that share data with these plans will be slowed to a maximum of 1.5Mbps until the start of your next payment cycle, unless you purchase extra data. Slowed data speeds (maximum of 1.5Mbps) are suitable for general internet browsing and music streaming, however, some activities such as video streaming may see increased buffering and loading times. Any unused data expires at the end of each payment cycle. If you don't want to share data between your services, they will need to be on separate accounts. Data is counted in kilobytes, and includes uploads and downloads.

What's not included

If you have the Medium or Large plan , you can only use your included international calls and SMS/MMS to Selected Destinations. You cannot make outbound international calls or send international SMS/MMS to any destinations not included in the Selected Destinations (listed above).

If you have the Small plan, you cannot make outbound calls or send SMS/MMS to international numbers unless you purchase an international calls and SMS/MMS add-on.

Your monthly standard national calls, text and data cannot be used overseas.

You cannot make use of mobile premium services on these plans.
