

OPTUS

HOYTS

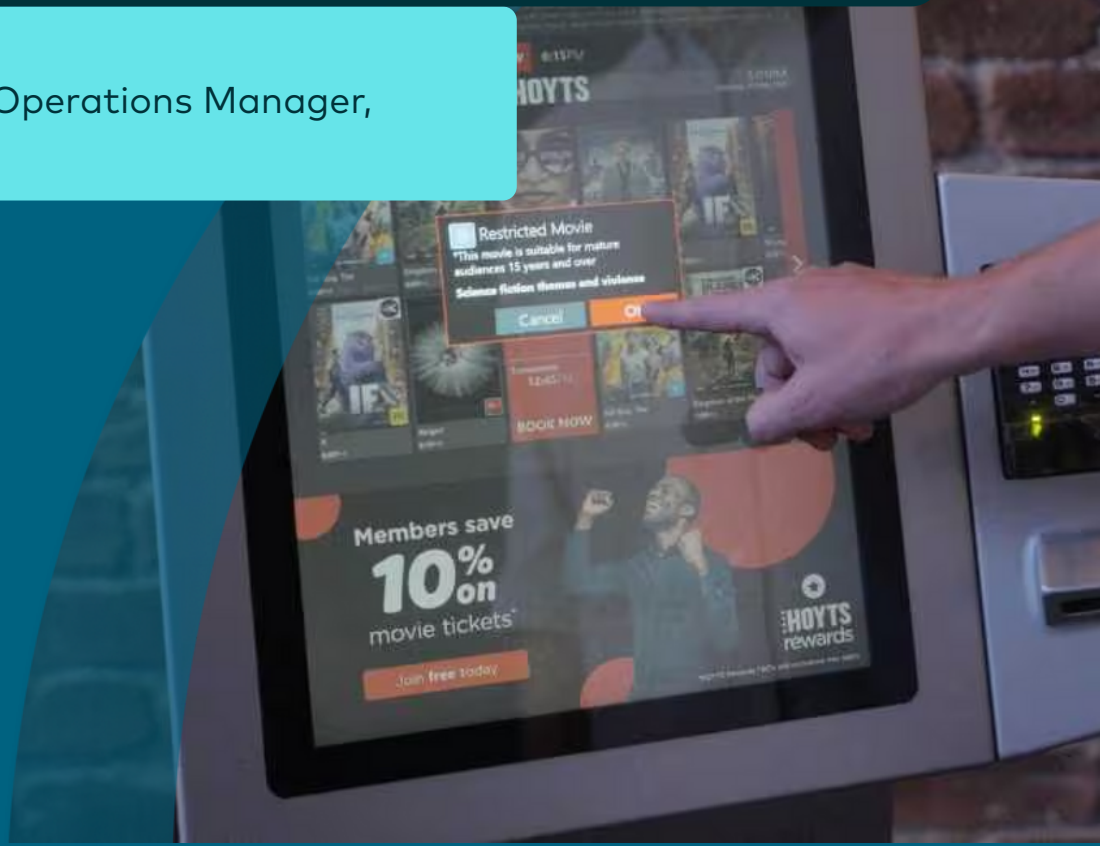

How HOYTS is bringing on what's next

**59+ sites and the technology
that makes growth possible**

Every site, customer and dollar depends on secure connectivity

"If our network goes down, it could cost us thousands of dollars a day... so a **resilient network is crucial."**

Tony Siclari
CISO/Group IT Operations Manager,
HOYTS Group

HOYTS needed connectivity that would **keep up with their growth**

"We've grown the performance, reliability and security of our network...protecting our business and protecting our customers."

Adam Wrightson
Group IT Director, HOYTS Group
